THE  
ALBANY DIRECTORY,

FOR THE YEAR

1865:

CONTAINING A

GENERAL DIRECTORY OF THE CITIZENS,

A

Business Directory,

A RECORD OF THE

CITY GOVERNMENT,

ITS INSTITUTIONS, &c., &c.

ALBANY:  
PUBLISHED BY ADAMS, SAMPSON & CO.,  
No. 55 STATE STREET.  
JUNE 1, 1865.

Entered according to Act of Congress in the year 1864, by ADAMS,  
SAMPSON & CO., in the Clerk's Office of the District Court  
of the Northern District of New York.

VAN BENTHUYSEN'S STEAM PRINTING HOUSE.

# TO OUR PATRONS.

In all Directories, comprising as they do, vast numbers of names and figures, some errors and omissions are invariably noticed, therefore we shall claim only that degree of accuracy and completeness which a competent and faithful corps of assistants, combined with a large experience in this business, are able to produce. That our patrons may have some data by which they may form an opinion as to how faithful our duties have been performed this year, we give the following facts: The whole number of names in the Directory of last year was 18,507; the number in this edition is 20,186; showing an increase over last year of 1,679 names. Many statisticians estimate the population of a city by adding three names to every one found in its Directory, such an estimate would show an increase of population during the past year of 6,716 persons. We are, however, of the opinion, that this great addition of names found, is derived more from the thoroughness with which our work has been done, than from a great influx of people to the city; but, from whichever source they may have come, knowing they have all been properly collected and compiled with unusual care, we feel that *more* than the usual credit is but our just due.

To our advertising patrons the public and ourselves are under especial obligations, which we hereby acknowledge. Without their assistance, much valuable information, in addition to the General Directory now given, and which tends far towards making the work complete and useful, would necessarily have to be omitted. All who are familiar with the publishing business know the limited income from the sales of the book, (its sale being principally confined within the city,) cannot pay its cost; therefore to those who contribute by way of advertisements as well as by purchasing copies, especial thanks should be extended from all who have occasion to refer to the many items of information contained herein.

We take pleasure in referring those who consult the Directory, to the names of our most prominent business men which are to be found on the opposite page; every class of business is represented by them, and we predict they will be found prepared at all times to serve our people in the most satisfactory manner. The figures opposite their names refer to the page on which their business cards may be found.

*Hamilton Street, Corner of Liberty and Union Streets,*

ALBANY, N. Y., U. S. A.

**HORACE L. EMERY,**

Patentee and Sole Proprietor and Manager.

The above CELEBRATED WORKS were originally organized and erected during the years 1847, '48 and '49 in this CITY OF ALBANY, by the present proprietor, who has since then, and almost without interruption, been directly or indirectly connected with them as proprietor and manager alone or with others, and more recently with his junior brothers, under the firm and title of EMERY BROTHERS, down to the year 1862, when he left the country to attend the WORLD'S EXHIBITION at London, with some of his leading articles of his invention and manufacture, where he remained with them nearly two years.

During the long period from 1850, the machines Manufactured at these Works, have acquired a world wide reputation for Excellence of Construction, Utility, Durability and cheapness, which is second to that of no similar Establishment in the World. The articles here made, have found a ready demand and large sale, in every part of this and other countries where they have been introduced, and such labor saving machines are used.

While abroad, he exhibited several of his leading Machines at the Great World's Fair with entire satisfaction and which resulted in establishing the manufacture of them there on a large scale, and which is constantly increasing.

During the time (nearly two years,) he devoted his entire attention to the interests of agriculture and Agricultural Machines, and the wants as well as the

supplies of all countries there represented, and especially to those of Great Britain, France and Russia—losing no opportunity to acquire a knowledge of and adopt so much of them as were useful or desirable for our own country. On his return here, in the early part of 1864, he purchased out the entire interests, in aid to these ALBANY AGRICULTURAL WORKS, together with the entire assortment, and large stock of Patterns, Machinery Material and business, and continues the same, at the old stand. He has since greatly increased his facilities, and improved upon the old, and added many new patterns and styles of machines, which from his experience and observation have appeared desirable. All of which he now offers to the public at large, assuring them that no efforts or expense will be spared in furnishing them with the best of everything of the kind in his line extant. And he earnestly solicits a continuance of the long and liberal patronage heretofore enjoyed by this house, from a discerning public.

Address Horace L. Emery, Albany, N. Y. U. S. A. Sole Proprietor and Manager of the Albany Agricultural Works, Ware-House and Seed Store, Hamilton, corner Union and Liberty Streets.

AUBURN, May 17th, 1865.

MR. HORACE L. EMERY:

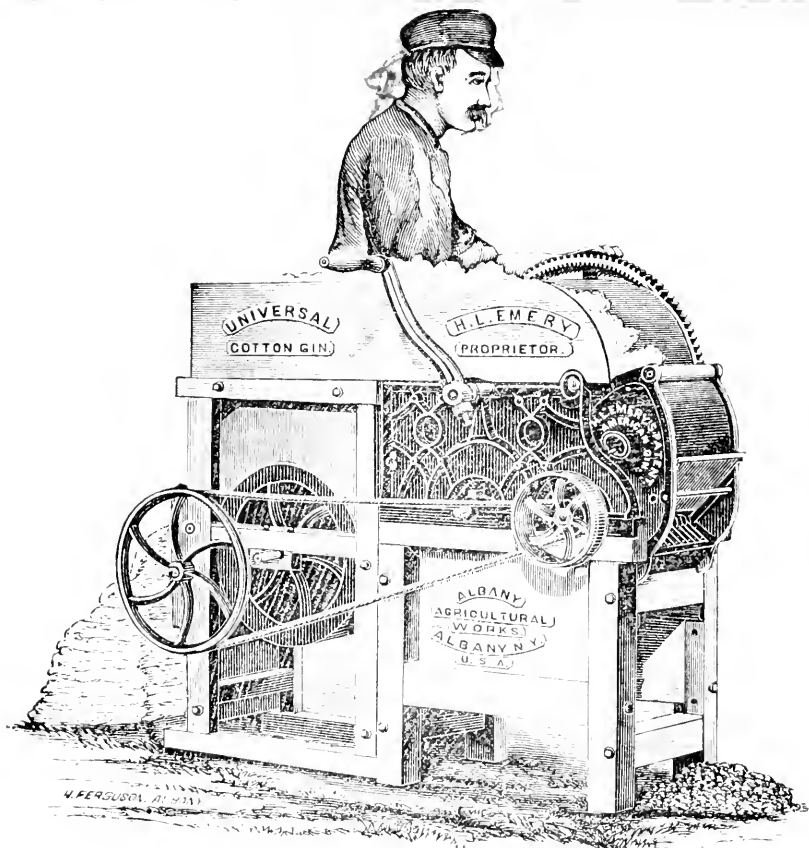

SIR:—My father, Abijah Fitch, handed me this day your letter, inquiring after the Fifty Saw Cotton Gin and Condenser, we purchased from you last season.

I used the Gin and Condenser on the Plantation in Louisiana, leased by us, and can assure you it was far ahead of the Gins in use there now, as can be. I tried it side by side, with the "St. Charles Gin," and yours produced from the same Seed Cotton, a much better lint and a better staple. So much so, that a difference of five cents per pound was made in favor of all which was run through your machines. Several Old Planters took especial pains to

examine them, and were perfectly satisfied of their great improvements over their old styles. The idea of Ginning Cotton *out of doors*, completely astounded them. I am satisfied that if yours were introduced, they would almost entirely displace all other kinds.

With your Two-Horse Endless Railway Power, with Gin and Condenser, a very large sale could be made in the Burnt District, through Alabama, Georgia, and the Carolinas, where their Gin Houses are "*non est*." If desirable, I can procure for you testimonials to the same effect, from planters and parties living in Louisiana, who have operated them, aside from any interest I may have had in them.

I am, Sir, Yours Respectfully,  
HENRY B. FITCH, Auburn, N. Y.

**H. L. EMERY'S PATENT**  
**UNIVERSAL COTTON GIN & CONDENSER.**  
**HORACE L. EMERY,**  
 Patentee, and Sole Proprietor and Manager of the  
**ALBANY AGRICULTURAL WORKS,**  
*Hamilton Street, corner of Union and Liberty Streets,*  
**ALBANY, N. Y., U. S. A.**

With the close of our civil War and the resumption of industrial pursuits, will follow a wave of emigration into the Southern States of a Free, Intelligent, Agricultural and Laboring Population, carrying with it the requisite Capital and Labor-Saving Machinery, and implements of the most approved and latest designs and construction, which will permeate all portions of those States, and especially those whose soil and climate are adapted by nature for the production of that wonderful staple, Cotton.

Among these machines none are of so great importance as those used in the production and preparation of this staple for the markets of the world, the Universal American Cotton Gin and Condenser ranks first, and the Endless Railway Horse Power with its Speed and Safety Governor Attachment, the second, in importance among them all. The Gin and Condenser was quite extensively introduced prior to the War, and with uniform good success, in some of the best portions of the Cotton States. It was universally approved at the World's Fair at London and by the Manchester Cotton Supply Association at Manchester, England, and adopted by them, and also adopted by the East India Cotton Agency Company, one of the oldest and largest Houses in the Cotton business in India; also by several of the Governments—as Turkey, Brazil, Egypt, Italy, Greece and India—in their respective efforts for the introduction of the culture of this staple.

Its merits are also even more fully endorsed by those using them in our own country during the past year; and numerous letters and testimonials are received and coming to hand from parties having used them, and as an average sample of their character a copy of one is hereto annexed: where the cotton

from the same plantations run through this Gin and Condenser uniformly commanded FIVE CENTS per pound over that by the best of other Gins in use, the "St. Charles Gin."

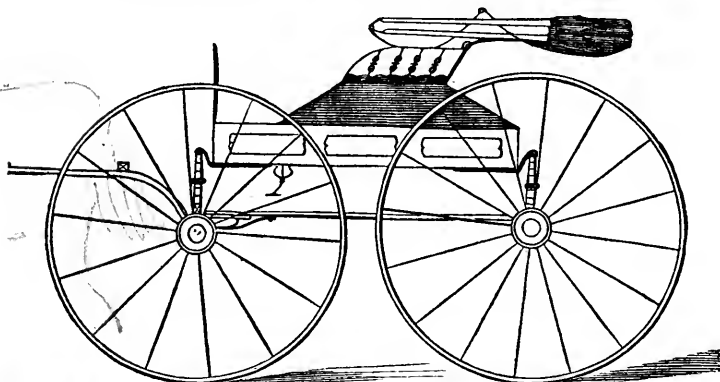

These Gins are made for Hand Use, of several sizes, capable of making one to two bales per day of clean cotton; also for Horse and Steam Power, with capacity from two to ten bales per day. They can be used with or without buildings, are proof against fire, and entirely portable and complete for use, and are all tested practically before being delivered from the Works.

The Endless Railway Horse Power, with its Speed and Safety Governor Attachment, when propelled by two horses, will drive a thirty-dye to Fifty Saw Gin and Condenser to clean from two to four bales per day, according to size of Horses, Mules or Oxen and the kind and condition of the seed cotton—the animals at the same time traveling as upon the roadway without requiring any kind of harness or gear, the speed being fixed by the governor to accommodate their natural gait and the work being done. This Horse Power is also fitted with a series of gears and pulleys, which will, by changes and transpositions, produce any desired speed of the driving hand pulley without affecting the travel or labor of the animals, thus making this power adapted to all kinds of work on farm or plantation.

These Gins, Condensers and Powers are offered to the public, and warranted to give entire satisfaction, or no sale. Orders solicited. Address Horace L. Emery, sole proprietor of the Albany Agricultural Works, Albany, N. Y., U. S. A.

The following is only one of the many equally flattering testimonials in my possession, showing the superiority of these scales over all others :

In the fall of 1885, I purchased of Mr. R. Groom, for the use of the Albany Gas Light Company, a 5000 lb. Dormant Warehouse Scale of his manufacture. In the following spring, that having given good satisfaction, I purchased a four ton buy scale of the same manufacturer. The next fall I purchased a six ton hay scale of Mr. Groom, and subsequently, another warehouse scale ; all of which have given perfect satisfaction. I consider them as having no superior, if indeed equal, in the market.

## GOLDSMITH'S WRITING AND BOOK-KEEPING ACADEMY, No. 71 STATE STREET, ALBANY, N. Y.

The subscriber respectfully announces that he has opened spacious rooms at No. 71 State Street, Albany, for instruction in PENMANSHIP, BOOK-KEEPING, AND GENERAL BUSINESS AFFAIRS, as conducted by the Principal Commercial and Banking Houses throughout the United States.

The course of exercises will be the same as those of his *Institute on Broadway, in the City of New York*, which has been established upwards of twenty years.—While the advantages are equal to any similar school for COMMERCIAL TRAINING, the opportunity is pre-eminently greater for the easy acquisition of a RAPID AND ELEGANT HANDWRITING, than at any other establishment.

And the rapid and beautiful writing of his students will be a surer passport to commercial employment, than any diploma from the many so-called Commercial Colleges.

**OLIVER B. GOLDSMITH.**

The Home Journal says:—"In every profession there is a recognized leading man—one whose pre-eminence is so decided, that nobody calls it in question.—Among those who teach the art of writing, OLIVER B. GOLDSMITH is just that indisputably pre-eminent person and recognized head of the profession. \* \* \* We advise those who wish to improve their handwriting, to bear in mind that there is not a place in the world where the art of Penmanship can be acquired, either more agreeably or more expeditiously, than at the establishment of Mr. GOLDSMITH."

## ALBANY YOUNG LADIES' INSTITUTE, No. 4 HIGH STREET, (Nearly Opposite the Capitol.)

The Academic year commences the first Wednesday of September, and is divided into four quarters, which commence respectively on the 2d of September, 4th of November, 27th of January, and 6th of April.

The course of studies is designed to be thorough and practical, and to embrace all the branches of Mental, Moral and Natural Science, which are taught in any of our Academies. Instructions are given in Music, Drawing, Painting and the Languages.

## HUDSON RIVER INSTITUTE.

**Located at Claverack, Columbia Co., N. Y.**

There are few Institutions of learning among us which have acquired such a wide-spread and deserved popular patronage as the Hudson River Institute.

The course of study prescribed for Ladies is of the highest grade,—embracing the solid, useful and ornamental,—and the facilities offered to those designing to fit themselves for teachers are unequalled.

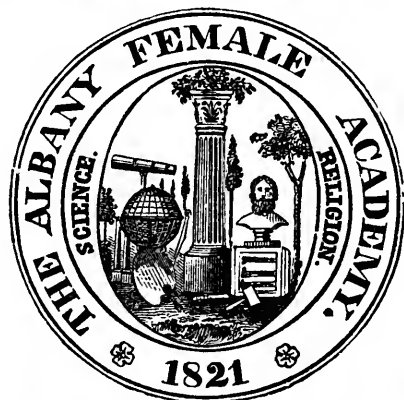

If a young man intends to enter COLLEGE, he will find nowhere a more thorough preparatory course. If, on the other hand, he wishes to engage in active business, he has opportunities and advantages assured to him for so doing in the COMMERCIAL DEPARTMENT, unsurpassed by any thing of the kind in the country.

Another and a newer feature of this already popular Institute is the erection of a magnificent Gymnasium, at great expense, which will be complete and ready for use, with all the necessary fixtures, in a few weeks. The system of Dr. Dio Lewis will be introduced by a competent and well-qualified teacher, who will drill our girls, as well as boys, in all its beautiful and health-giving exercises. These exercises are now so universally considered essential to establish and sustain perfect health, that no school can henceforth dispense with them and live.

It is not necessary to speak further of the Hudson River Institute; of its delightful situation, the splendor of its surrounding scenery; those are known far and wide, and stand *unrivalled*. Every parent who appreciates the advantage of a thorough educational training will hasten to secure a place without delay for his sons and daughters.

Its Faculty are all of well-known and tried ability; and the advancement and welfare of the student is the end and aim of all their exertions. This is the secret of its great success, especially under the administration of its present able and efficient Principal, Rev. ALONZO FLACK, A. M.

## FEMALE ACADEMY.

This is one of the oldest institutions for the education of females in this country. Its Graduates and Pupils, many of whom have enjoyed its advantages from the very commencement of school life, are to be found in all parts of the land, and adorn the highest social positions.

The Trustees have spared no pains or expense in furnishing it with the most approved and complete appointments, and with a corps of Teachers believed to be unsurpassed in any similar institution.

In addition to its regular course of English studies, facilities are afforded for the acquisition of every accomplishment belonging to a liberal culture and a complete education.

### GYMNASTIC EXERCISES

Are daily practiced under the direction of a lady who devotes her whole time to the Department of Physical Education.

## Music.

Further information, circulars, &c., can be obtained of the Principal, EBEN S. STEARNS, at the Academy in North Pearl Street, or of any of the Trustees.
